

PV Solutions Commercial Rebate Program Application

This application must be completed and submitted to IID in order to receive a rebate for installation of a solar photovoltaic (PV) system under the IID PV Solutions Rebate Program.

Please refer to the application instructions to complete this form.

Only fully-completed applications will be processed.

Address	City	State Zip Code
E-mail Address		

INSTALLER INFORMATION

Name	Daytime Area Code and Phone No. ()	Fax No. ()
Address	City	State Zip Code
E-mail Address	Contractor Class	
License #	Expires	Will installer provide a full five-year warranty? <input type="checkbox"/> Yes <input type="checkbox"/> No

GENERATING SYSTEM

Photovoltaic Module Manufacturer	Module Model #	Quantity
PTC Power Rating per module _____ Watts PTC	Total Module Output _____ Watts (<i>Quantity X PTC Power Rating</i>)	
Inverter Manufacturer	Inverter Model #	
Inverter Efficiency %	Inverter includes eligible performance meter? <input type="checkbox"/> Yes <input type="checkbox"/> No	Quantity
System Rated Output _____ Watts AC		

INSTALLED SYSTEM COST

\$ _____ (<i>Total cost of system before incentive</i>)

REBATE AMOUNT

\$ _____ (<i>not to exceed 50% of customer out-of-pocket expense</i>)

(continued on reverse)

INSTALLATION CERTIFICATION

The Undersigned declares under penalty of perjury that:

- 1) The information provided in this form is true and correct to the best of my knowledge.
- 2) The system was installed according to system information provided by the applicant.
- 3) The site of installation is located within the service territory of IID.
- 4) The purchaser's intent is to operate the system at the listed site of installation for its useful life.

The undersigned applicant acknowledges that IID makes no representation or warranty of any kind concerning the efficacy, safety, utility or functionality of solar photovoltaic systems. Applicant agrees to hold IID harmless in the event applicant incurs liability or damages of any kind resulting from the installation, maintenance or use of solar photovoltaic systems. ***IID reserves the right to modify or discontinue this program at anytime without prior notice.***

PV Solutions Commercial Rebate Application Instructions

HOW TO COMPLETE THE PV SOLUTIONS REBATE PROGRAM APPLICATION

1. Purchaser Information

Provide contact information of purchaser of the system. Provide the street address where the system will be installed, and the IID Contract Account number.

2. Seller Information

Provide contact information of the seller of the generating equipment.

3. Installer Information

Provide the installer's name, if different from the seller, and the California license class (C-10, electrical or C-46, solar) and license number of the installing contractor.

4. Generating System

PV Modules: Enter the manufacturer's name, model number and quantity of photovoltaic modules that your system will contain. Only modules that have been certified by a nationally recognized testing laboratory as meeting the requirements of the Underwriter's Laboratory (UL) Standard 1703 are eligible. Enter the "PTC" (not STC) rating of the modules. PTC ratings can be obtained from the module manufacturer. The California Energy Commission (CEC) maintains a list of certified modules and their PTC ratings on their Web site at: www.gosolarcalifornia.ca.gov/equipment/pvmodule.html. Multiply the module quantity by the module PTC watts to get Total Module Output in watts PTC.

Inverters: Enter the manufacturer's name, model and inverter efficiency (at three-quarter's load) of the inverter in your system. Inverters must be certified as meeting the requirements of UL 1741. A list of certified inverters can be obtained from the CEC Web site at: www.gosolarcalifornia.ca.gov/equipment/inverter.php.

Performance Meters: Meters must retain the kilowatt-hour production data in the event of a power outage and must be easy to read for the purchaser's benefit. The meter must measure the total energy produced by the system in kilowatt- hours and have a manufacturer's uncertainty specification of plus or minus five percent.

5. System Rated Output

Multiply the Total Module Output by the Inverter Efficiency. Please enter the entire system size even if your rebate will be capped. This total must be at least 1,000 watts AC.

6. Installed System Cost

Enter the total cost of the system, equipment and installation, before the rebate.

7. Rebate

Reservation amount adjusted by actual installation.

8. Signatures

The purchaser must always print and sign his or her name on the form. The purchaser and installer must sign the Installation Certification. Please indicate if the rebate payment is to be assigned to a third party. A third party is an entity other than the purchaser or IID. If yes, please fill in the Payment Release Authorization. The assignment authorization must contain original signatures. Payees that assign the rebate payment to a third party will still be reported as the recipient of the payment(s) for tax purposes.

REBATE APPLICATION SUBMITTAL

Please mail your rebate application to:

Imperial Irrigation District
PV Processing
P.O. Box 937
Imperial, CA 92251

If you have any questions, please contact us at: (760) 339-9724
