

REGULATION NO. 13
TEMPORARY SERVICE CHARGE

Temporary Service as herein considered refers to service to circuses, bazaars, fairs, temporary restaurants, construction works, testing of wells, temporary agricultural or processing installations, and any similar use of electric energy which shall be considered by the District to be of a temporary nature.

Upon application by a bona fide applicant for such service, the District, if in its opinion the furnishing of such service will not cause an undue hardship upon it or its then existing customers, will furnish temporary service subject to the following conditions:

1. Advance Payment

The applicant for such temporary service shall be required to pay to the District in advance either the standard charge listed on the current fee schedule or the estimated cost of installing plus the estimated cost of removing less the estimated salvage value of all facilities necessary to furnish such service by the District. To protect its investment, the District may, at its sole discretion, require the applicant to pay the full estimated cost of installing and removing all facilities exclusive of the benefit of the salvage value of the installed facilities. The net salvage value, if any, shall be refunded upon the completion of service.

2. Standard Service

The standard charge applies when a transformer(s) or pole(s) are not required to be installed, service is at 200 amps and single-phase, and the length of the service line is 100 feet or less. All other temporary service applications will be considered non-standard and the cost to provide service estimated by the District.

3. Deposits for Energy Consumed

Each applicant for temporary service may be required to deposit with the District a sum of money equal to the estimated amount of the District's bill for sale of energy. Alternatively, the District may require the applicant to secure in a manner satisfactory to the District, the payment of any bills which may accrue by reason of service so furnished or supplied by the District.

4. Limitations

Nothing in this regulation shall be construed as limiting or in any way affecting the right of the District to collect from any customer any additional sum of money which may become due and payable to the District from the customer by reason of the temporary service furnished or to be furnished hereunder.

5. Completion of Service

Upon discontinuance of such temporary service or within two years of providing service, the District may immediately remove all or any part of the facilities furnished.

Board action November 18, 2003.
