

IMPERIAL IRRIGATION DISTRICT
Imperial, California

SCHEDULE SL-1
STREET AND HIGHWAY LIGHTING SERVICE
(District-Owned Facilities)

APPLICABILITY

Applicable to service of street and highway lighting installations supplied from overhead lines, where the District owns and maintains the entire overhead equipment.

MONTHLY RATE

<u>Lamp Rating</u>	<u>kWh Per Month</u>	<u>Rate Per Lamp</u>
HIGH-PRESSURE SODIUM VAPOR:		
50 W 4,000 Lumens	25	\$8.46
70 W 5,000 Lumens	35	9.06
100 W 8,000 Lumens	47	10.48
150 W 15,000 Lumens	65	12.61
250 W 25,000 Lumens	100	16.62
400 W 45,000 Lumens	160	23.68
LIGHT-EMITTING DIODE (LED):		
31 W 3,400 Lumens	5	\$6.95
39 W 4,000 Lumens	19	8.29
58 W 6,000 Lumens	33	10.85
98 W 10,000 Lumens	50	11.08
149 W 15,000 Lumens	98	18.53

Energy Cost Adjustment

The kilowatt-hours, as determined above, are subject to an energy cost adjustment as provided in Schedule ECA and ECA-R.

SPECIAL CONDITIONS

- A. Service shall generally be from dusk to dawn and will be considered as 4,190 hours per year or 349 hours per month.
- B. For District-owned installations, rates are applicable to standard street and highway lighting equipment mounted on wood poles or steel street light standards with overhead circuits only. When underground services or steel poles are requested, the customer will be required to furnish and install the necessary equipment for service and be responsible for replacement when it has been

IMPERIAL IRRIGATION DISTRICT
Imperial, California

determined that such replacement is necessary. Any payment advances made for other than a standard installation will not be refunded.

- C. For an underground service installation and maintenance, the customer will be required to furnish and install the necessary underground wiring, ducts for circuits, pullboxes, conduits, substructures including foundations and anchor bolts, excavating, backfilling and restoration of the pavement in accordance with the District's specifications. Any installations over the above standard provisions may be installed by agreement between the parties provided the customer pays all costs incurred. All underground maintenance, wiring, ducts for service, pullboxes, conduits, substructures including foundations and anchor bolts, excavating, backfilling and restoration of pavement, underground infrastructure, and steel poles and its installation costs are the responsibility of the customer.
- D. Service will not be furnished under this schedule where, in the opinion of the District, an undue hazard or expense will be involved because of locations, mounting height, or other reason. The installation of street lighting equipment and facilities is contingent upon the District obtaining easements, rights of way, clearances and highway permits satisfactory to the District for the required poles, lines, equipment and facilities.
- E. LED fixtures will only be installed at new locations, or where existing fixtures must be replaced due to failure, and at locations where suitable service is available as determined by Imperial Irrigation District. High-pressure sodium vapor street light fixtures will be changed to LED fixtures if the above conditions are met. Fixture replacements will be made by attrition only and when it does not interfere with other work. Cost for replacement of lights to LED fixtures requested by the customer before it is needed, shall be the responsibility of the customer. The customer shall be responsible to apply for replacement with the District business office.
- F. Vegetation caused by the customer is the responsibility of the customer for installation of new lights or for maintaining existing lights.
- G. Outages will be reported by the customer. Lamp maintenance will be done during regular working hours or as soon as reasonably possible after the customer has notified the District. Monthly bills will not be adjusted for reasons of any outages. Billing will be adjusted to accommodate any fixture size changes or installations.
- H. Regulations Governing the Sale and Use of Electric Energy: Service under this rate schedule is subject to the District's Regulations Governing the Sale and Use of Electric Energy.
