Imperial Irrigation District
Imperial, California

WATER RATES

SCHEDULE NO. 3

Pipe and Small Parcel Service

Applicable to service from any pipes which are installed to take water by gravity flow only from the canals of the District for general use, or for any service to small parcels from an irrigation system within the Imperial Unit.

NOTE: Water provided by the Imperial Irrigation District is raw canal water and not suitable for cooking and drinking purposes unless treated according to all applicable state and federal regulations.

Annual Charge

(a) Tier 1 - For pipes with a diameter of 2 inches or less, or for service to small parcels from an open ditch
   $250.00 per year

(b) Tier 2 - For pipes with a diameter of over 2 inches and not exceeding 6 inches, per acre.
   $100.00 per acre per year,
   2 acre minimum charge per year

Special Conditions

(a) In the event any of the above pipes serve more than one water user, each additional water user shall be subject to the annual charges provided for in this Schedule.

(b) Pump accounts used for water service to dairies, cattle and/or feed yards or other animal husbandry activity shall be charged on the basis of Schedule 3(b) whether water delivery is made by pipe and/or otherwise.

(c) Water service to small acreage shall be charged on the basis of Schedule 3(b). Houses receiving water through private field head ditches during normal irrigations will not be charged under this schedule but may order regular Stock Water as needed.

(d) Accounts that provide service for domestic (residential and/or business) purposes must adhere to all state and federal regulations as well as the Imperial Irrigation District’s Safe Drinking Water Act compliance efforts as outlined in Regulations No. 10 and 21.
(e) Equitable Distribution Plan - In a year where a supply demand imbalance (SDI) has been declared, this rate schedule shall be adjusted as defined by the “Regulations for Equitable Distribution Plan.”
